

Exciting Watershed Board Game

NEWS RELEASE

FOR IMMEDIATE RELEASE

August 30, 2006

Partners FOR the Saskatchewan River Basin:

The development of this project is made possible by:

The Partners FOR the Saskatchewan River Basin is pleased to announce the development of an exciting new Basin Geography Board Game.

The Basin Geography Board Game will teach children age 5-10 about their place within the Saskatchewan River Basin, its diverse culture, and how their actions can influence the greater watershed basin. “This game will help promote the ecological integrity of our rivers and their associated systems” said Jennifer Nelson, Acting Manager. “It will also foster and encourage a wider perspective on the basin and its culture.”

Youth can be involved by participating in this fall’s art contest. The winning artwork will be featured in the game. Copies of all the participants work will be made available online at www.saskriverbasin.ca.

To help in the development of the board game, the Partners FOR the Saskatchewan River Basin has elicited the assistance of Ken Marland, a grade 3 teacher at Saskatoon’s Buena Vista Elementary School, and Huw Evans of EYECATCHER Graphics & Design.

The prototype will be completed in fall this year and the final copies will be ready for distribution by spring 2007.

Funding for this program was made possible through Eco Action Canada, Fisheries and Oceans Canada’s Stewardship-in-Action Initiative, and the Saskatoon Community Foundation.

If you would like further information on this program, please contact us at 1-800-567-8007, email partners@saskriverbasin.ca or visit us online at www.saskriverbasin.ca.

Partners FOR the Saskatchewan River Basin (PFSRB), a non-profit organization, was established in 1993 with a mandate to promote stewardship and sustainability of the Saskatchewan River Basin.
